

Venlon 6GN (Natural Cast Nylon)

Product Information Sheet

Product Information

Trade name:	Venlon 6GN
Designation:	Cast Nylon
Food compliance FDA:	Yes
Colour:	White/Natural

Product Description

This natural grade, produced by monomer casting process, demonstrates similar characteristics to Nylon 66. Cast materials contain significantly lower stress levels combined with high strength, good creep and wear resistance resulting in great dimensional stability when machining. It offers the possibility of manufacturing large-sized stock shapes as well as custom castings which require only minimal machining. With material being more dimensionally stable comparing to the one of widely used polyolefin, it can be used for a much closer tolerance parts.
